Notes:

- * Wellhead unfiltered results that exceed triggers.
- ** During week 1 the trigger may have been reported as 4 ug/L and later revised to 4.5 ug/L. HW 2 may have been told that they would be resampled based upon this early trigger.
- *** No more than 5% samples total coliform-positive in a month for public water providers.
- **** For persons with sodium restricted diets
- ***** Secondary MCL
